Image report

The img elements of the page are shown below categorized by their type of textual alternative. Please review that the images in each group match that group's definition.

Empty textual alternative—Omitted from non-graphical presentation

The following images are marked to be omitted from non-graphical presentations (alt=""). Purely decorative images belong in this category. Also, iconic images that are redundant with text next to them belong here. If the page would become less understandable if the presence of an image was concealed, the image doesn't belong here. In that case, a textual alternative should be supplied or if the markup generator does not have a textual alternative available (because the user refused to provide it), the alt attribute should be omitted by the markup generator.

| Image | Location |

| Not resolvable | From line 43, column 7 to line 43, column 65 |
| Not resolvable | From line 55, column 7 to line 55, column 65 |
| Not resolvable | From line 58, column 7 to line 58, column 65 |
| Not resolvable | From line 69, column 7 to line 69, column 65 |
| Not resolvable | From line 72, column 7 to line 72, column 65 |
| Not resolvable | From line 75, column 7 to line 75, column 65 |
| Not resolvable | From line 78, column 7 to line 78, column 65 |

Images with textual alternative

The following images have textual alternatives. Please review that the textual alternatives make sense considering the purpose of the image in the context of the page and that phrases like "Image of ..." are avoided. Note that iconic images that are redundant with text next to them or purely decorative should have alt="" instead.
